

Martinez, California • Founded 1923

**REQUEST FOR PROPOSALS
SYSTEMS RELIABILITY EVALUATION
WASTEWATER TREATMENT PLANT**

ADDENDUM NO. 2 – January 13, 2010

1. The date for interviews has been tentatively changed to February 17 or February 19, 2010. The date will be confirmed with the top rated firms following review of the written proposals.
2. A request for information regarding digester gas production was received. The District produces between 20,000 and 25,000 cubic feet of gas per day. Gas production logs will not be furnished for the purpose of submitting a proposal.
3. An excerpt from a building site and needs analysis that was prepared in 1998 has been attached to this addendum. The Administration Building and Learning Center was constructed based upon this document. Improvements to other buildings on site have not been made.
4. A copy of the hydraulic model for the treatment plant will be posted to the District's Web site by the end of the week (1/15/10).
5. A digital copy of this Addendum No. 2 and the attachment will be posted to the District's website (<http://mvsd.org/>).
